Conditions

All Terms and Conditions at <https://www.boxc.com/terms> apply to this rate quote.

Any shipment containing batteries requires pre-authorization.

BoxC Parcel and Plus to US over 127 cm length + girth are charged a \$4.41 per KG surcharge.

BoxC Parcel to GB over 40,000 cm³ is charged a \$0.57 per parcel surcharge.

All Rates

All rates are in US Dollars (USD);

Minimum chargeable weight: 100g;

Maximum length is 55 cm and maximum length + girth is 213 cm;

Dimensional weight in kg per package = Length x Height x Width in cm / 6,000 unless noted otherwise;

Shipments containing lithium batteries are subject to prevailing regulations and packaging requirements as set out by the International Air Transport Association (IATA);

An accurate pre-alert must be provided electronically prior to shipment drop-off at BoxC facilities or pick-up;

Rates are applicable only when shipment is consigned according to instructions and presentation requirements;

No overseas returns of undeliverable items is available under this agreement;

Undeliverable shipments are returned to local addresses and may be subject to return postage charges and processing fees;

BoxC reserves the right to review and adjust its rates or surcharges at any time without notice;

Line items in shipments are required to have accurate descriptions and are subject to inspection;

Line items in shipments that are prohibited, counterfeit or have inaccurate descriptions are subject to delays and penalties;

Any penalties, customs duties and/or other relevant taxes imposed by authorities will be invoiced to consignor at cost;

Transit times listed for destination countries are estimates and are not guaranteed delivery times;

Total Shipping Protection insurance is included for up to \$30.00 of total parcel value and available for up to \$10,000 for 1.75% of total parcel value over \$30.00, plus shipping cost;

Balloon, oversize and volume pricing may apply;

Discounts applied to KG rate;

Rate Tier Discounts

Rate Calculation

A shipment's cost is calculated by multiplying the per KG rate by the shipment's weight and adding the per PC rate from the weight range column.
